

2019

Sustainability Report

Espresso House serves Specialty Coffee of the highest quality in the world according to the Specialty Coffee Association (SCA).

43,4%
plant-based food & drinks

We are on good way to reach our 2020 target to have 50% of the menu plant-based, ending with an average of 43,4% in all countries in 2019.

1 000 000 SEK in charity

Every year Espresso House support local events and organizations with the aim to improve people's lives and contribute to a positive change in the society.

Reusable cup loyalty program

Espresso House encourage and reward sustainable coffee consumption. Free drinks is offered at double pace if a reusable cup is used. In 2019, a quarter million drinks where purchased with a reusable cup.

49% of our sold filter coffee was organic.

Our organic coffee is certified and labeled with the EU logo for organic production, which guarantees that the EU rules for organic farming have been respected.

2 000 000
plastic straws has been avoided

In 2019, Espresso House introduced strawless lid on drinks, meaning about 2 million plastic straws has been avoided. Furthermore, paper straws and FSC certified wood cutlery were purchased to replace plastic straws and plastic cutlery.

418 coffee shops connected to food rescue programs.

89% of our coffee shops was linked to food saving applications such as Karma, ResQ and Too Good To Go.

327 ton
Co2 emissions where rescued

Through food saving applications, Espresso House saved a total of 267 231 products from going to waste in 2019.

92% transportations was climate compensated.

Within the Nordics, almost all transports from the roastery was climate compensated. Overall, transports are streamlined to ensure that they are not running empty and therefore reducing the carbon footprint.

Sustainable friends

We collaborate with local companies that helps us be innovative and put new healthy and sustainable products on the menu. A selection of co-labs:

Svegro (SE),
Sproud (SE),
Solsken (SE),
Kaslink (FI),
Emmerys (DK),
Rawlution (D)

Our responsibility "from bean to cup" is secured by Enveritas, a non-profit third-party organization that aim to help smallholder farmers participate in a globally sustainable coffee industry

3/4 sustainable furniture

In coffee shops, 76% of the furniture was 2019 in-house designed and to a large extent produced in Sweden. Espresso House also collaborate with ReFurn, a circular company who resells used furniture.

62,8% lacto-ovo vegetarian products

An average 62.8% of the assortment was lacto-ovo vegetarian products. By the end of 2019 the majority of our salads and veggie bowls were either lacto-vegetarian or plant-based.

European Chicken Commitment

In 2019, Espresso House locally joined the ECC commitment, supporting the progress of improving chicken welfare.

\$20 000
to Health Clinic in Ethiopia
